PROFILE

Infrastructure and IT operations engineer covering networking, endpoint security, Microsoft 365 and OT/SCADA support, with a compliance-first approach (ISO/IEC 27001:2022, CIS Benchmarks). Builds PowerShell and Python tooling to automate onboarding, auditing and monitoring.

EXPERIENCE

Engineer, Digital Infrastructure Support

Cypark Sdn Bhd · 2025 – Present

- Manage the Proxmox virtualisation environment and backup systems to keep the platform reliable.
- Maintain HPE and Aruba switching, VLAN segmentation and network documentation across HQ and remote sites, and configure Palo Alto (PAN-OS) firewall rules.
- Led the company-wide Splashtop remote access deployment, enrolling around 70 endpoints.
- Conduct SCADA vulnerability assessments and drafted the guideline for controlling automatic Windows Updates on plant OT PCs.
- Enforce ISO/IEC 27001:2022-aligned endpoint controls through Intune and Defender for Endpoint, including USB storage whitelisting and UAT of a Windows device rollout for about 30 users.
- Wrote a 137-control PowerShell audit script that maps Windows 11 hardening checks to CIS Benchmarks and ISO 27001:2022.
- Led incident response and staff awareness for a social-engineering malware attempt and a browser-notification scareware incident.
- Built a PowerShell automation suite for onboarding, server cleanup and disk monitoring, and automate IT workflows with Power Automate and Microsoft Graph.
- Administer Microsoft 365, Entra ID and SharePoint, including identity, licensing and collaboration workspaces.
- Evaluate vendor proposals for solar-farm CCTV and monitoring systems, weighing capex against managed-service options and flagging SLA and exit-clause risks.

Business / System Analyst (GEES)

PETRONAS Carigali Sdn Bhd · Jul 2023 – Jul 2024

- Analysed and reported on process flows for a Lean Six Sigma fuel-recoupment project, contributing to a 70% reduction in lead time and about 4,000 manhours saved.
- Managed reporting for the Vessel Tracking System (VTS), contributing to a 25% lead-time improvement and about 71,280 manhours saved.
- Led data integration for the Marine Intelligence System (MARSIS) to unify logistics data sources.
- Played a key role in User Acceptance Testing (UAT) of digital logistics tools prior to production rollout.

Web Developer Intern

UiTM Technoventure · Sep 2022 – Jan 2023

- Built web pages and forms with HTML, CSS and PHP, and managed the MySQL database for an internal web application.
